

Alya Hasan Aldaka

Cybersecurity Specialist · **AWS CIC Graduate** · Cloud Security & Secure Development
+973 35933543 | alyaaldaka08@gmail.com | linkedin.com/in/alya-aldaka | aaldaka.github.io

PROFESSIONAL SUMMARY

Cybersecurity specialist, **AWS Cloud Innovation Center (CIC) graduate**, AWS Cloud Practitioner, and CPISP scholar with hands-on expertise in vulnerability assessment, cloud security, and secure software development. Skilled in vulnerability assessment (Burp Suite, Nmap) and network traffic analysis (Wireshark), with programming experience across Python, Go, Java, SQL, and Flutter. Combines practical full-stack development (React, Node.js, Docker) with certifications in risk management and encryption. Passionate about cloud and security within the financial sector.

TECHNICAL SKILLS

Security & Networking: Wireshark, Nmap, Cisco Packet Tracer, Vulnerability Assessment, Traffic Analysis

Cloud & Infrastructure: AWS CDK, CloudFormation, Docker, Oracle VM, Cloud Security

Programming & Scripting: Go (Golang), Java, Python, SQL, Dart, Rust, JavaScript, PHP

Web & Backend: Node.js, React.js, Next.js, REST APIs, Tailwind CSS, Bulma CSS

Mobile & AR: Flutter, Unity (AR/3D)

Languages: Arabic (Native), English (Fluent)

EDUCATION

University of Bahrain — B.Sc. in Cybersecurity

2022 – Aug 2026

- GPA 3.7 (Second Class Honours).
- Senior Capstone: *AWS CIC Program × Ministry of Interior* — KyNova AR K9 Training Platform (see Projects).

Reboot Coding Institute — Full Stack Developer Program

Jun 2024 – Jun 2026

Chartered Management Institute (CMI) — Level 3, Principles of Management & Leadership

2021

PROJECTS

KyNova — AR K9 Training Platform [SENIOR CAPSTONE]

Backend & Unity (AR) Developer · AWS CIC × Ministry of Interior

- Augmented-reality mobile platform enabling Ministry of Interior canine (K9) handlers to train with virtual police dogs through interactive AR scenarios, with a dedicated visitor mode for public engagement. Built on Flutter, Unity AR, and AWS (Cognito, API Gateway, Lambda, DynamoDB, S3).
- Served as backend and Unity (AR) developer — built the serverless backend (AWS Lambda, API Gateway, DynamoDB) and developed the Unity-based augmented-reality training module and integrated AWS services. Delivered with the AWS Cloud Innovation Center program and the Ministry of Interior.
- Delivered 5 interactive AR training scenarios for K9 handlers, validated through testing and review by the Ministry of Interior.

Penetration Testing Lab

VirtualBox · Nmap · Wireshark · Burp Suite

- Conducted vulnerability assessments on VMs and performed network traffic analysis and security configuration testing with Cisco Packet Tracer.

Secure Social Media Platform

React.js · Node.js · Go

- Built a full-featured social platform — user profiles, posts, news feed, and real-time chat — backed by secure authentication and encrypted storage.

University Room Booking System

Next.js · Tailwind CSS · Java

- Developed a full-stack booking platform with real-time availability and role-based access control.

Smart Road Simulator & Filler AI Game

Rust

- Simulated intelligent traffic systems with optimization algorithms; built a strategic game with a heuristic-driven AI bot.

Custom Web Framework

Go (Golang)

- Built a lightweight framework from scratch with routing, middleware, and MVC architecture.

CERTIFICATIONS

- AWS Cloud Innovation Center Program (CIC) — Ministry of Interior Collaboration, AWS, 2026
- AWS Certified Cloud Practitioner — AWS, 2025
- Advanced Cybersecurity Risk Management — Board Infinity, 2025
- Metasploit for Beginners: Ethical Penetration Testing — Coursera, 2025
- NASA International Space Apps Challenge — Certificate of Participation, 2024
- IBM SkillsBuild (Cybersecurity Pathway) — Architecture, Encryption & Career Fundamentals, 2024
- Cybersecurity Certificates — Kennesaw State University (Coursera), 2024
- HCIA – openEuler V1.0, 2024
- Principles of Management & Leadership — CMI Level 3, 2021

SOFT SKILLS

Analytical Problem Solving · Cross-Functional Collaboration · Adaptability & Continuous Learning · Technical Documentation

COMPETITIONS & ACHIEVEMENTS

- Competed in national hackathons — NASA International Space Apps Challenge.
- Volunteer, Cybersecurity Community Engagement — Arab International Cyber Conference & Exhibition (AICS) and 1st Youth Cyber Forum.
